About Me

Objective

To take a challenging position where I can utilize my skills at developing web application and the opportunity to learn and upgrade my knowledge in related fields.

Technical Skill

Advance

Java, HTML, CSS, MySQL

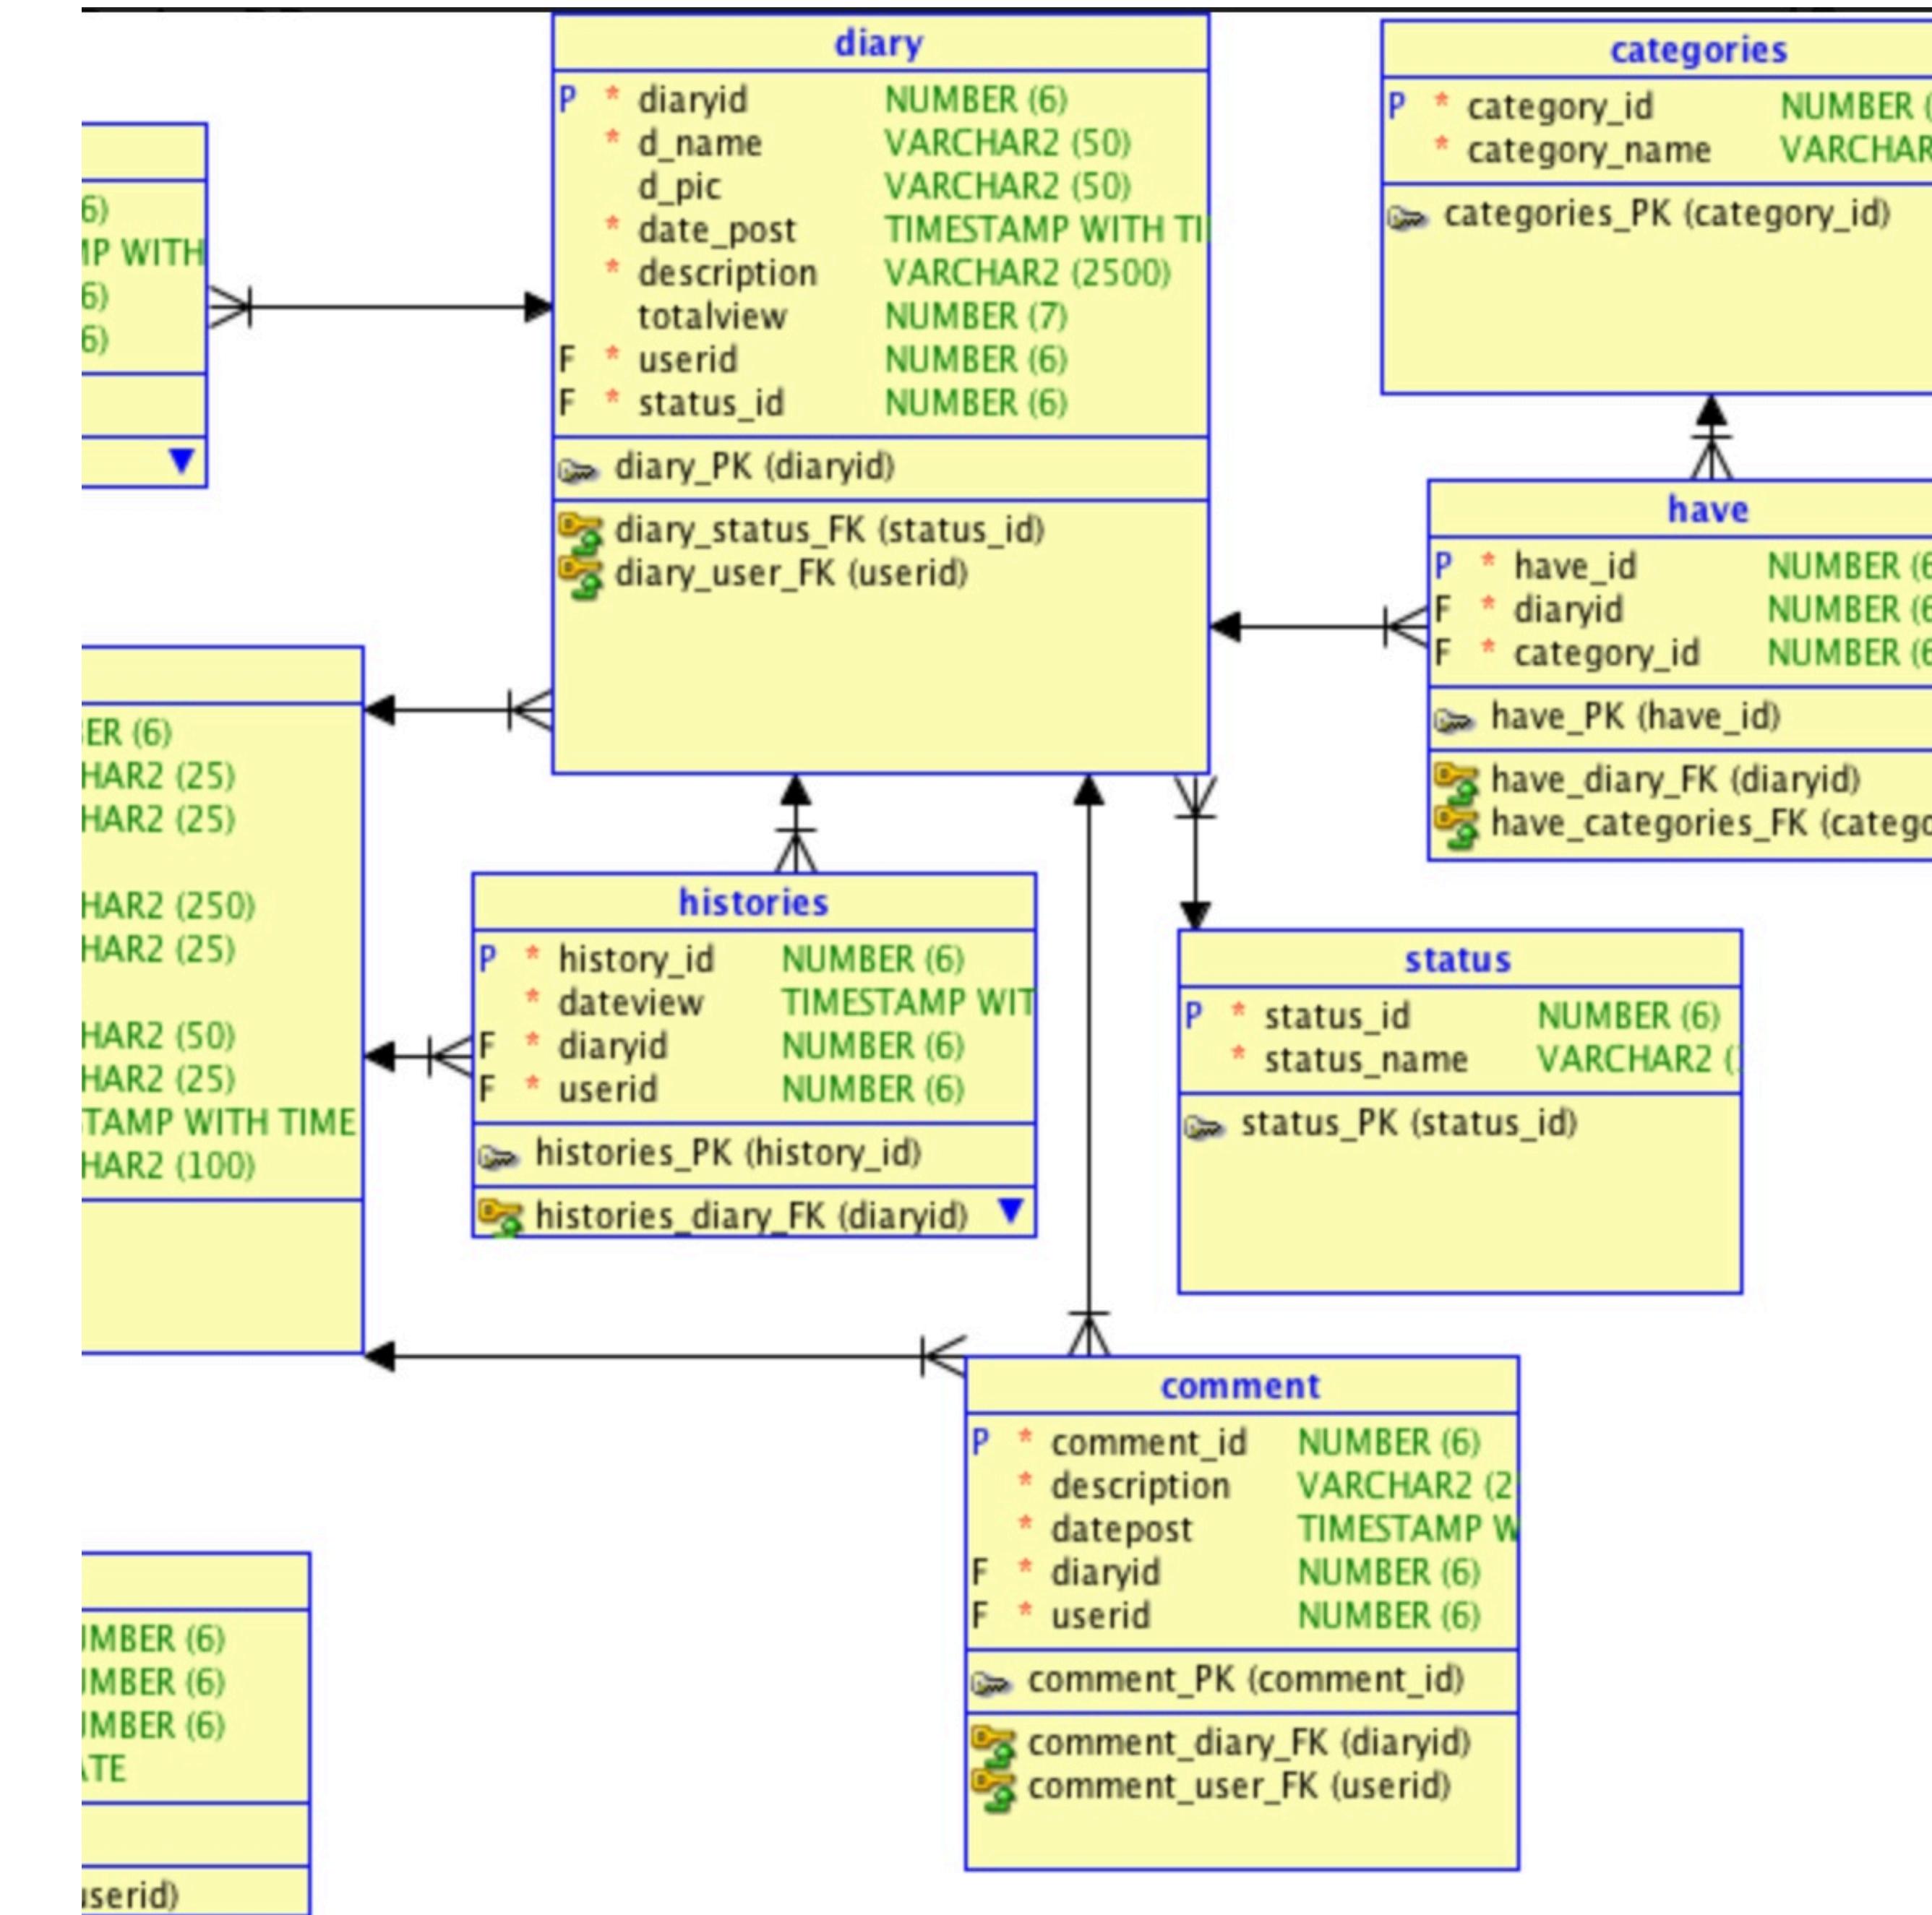

Intermediate

ES6, C#, Bootstrap, Git, Agile Methods,
Unit test, UML Diagram

Basic

C++, C, Node.js, Express.js, jQuery, RethinkDB

Education

Develop a passion for learning. If you do, you will never cease to grow.

MAR 2014

Graduate from high school

I graduated from Benchama Rat Rangsarit School,
Chachoengsao, Thailand with GPA 3.26

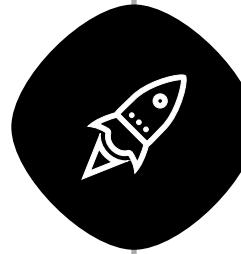

Become a university student

I have started a university life as an IT student from
School of Information Technology at King Mongkut's
University of Technology Thonburi, Bangkok, Thailand

SEP 2014

JUNE 2015

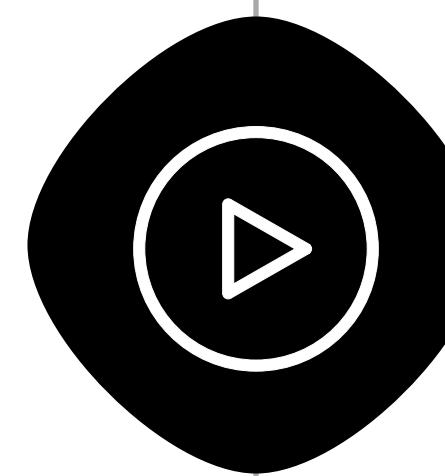

Win the challenge

I won the competition in the SIT Bootcamp#2 from developing Project X

Movie Store

This project is a part of INT303 Web Programming

SEP 2015

MAY 2016

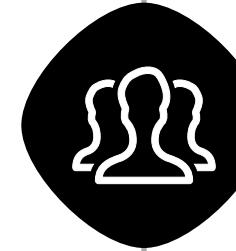

Join the Network Bootcamp

Our team prepared the environment for the Programming Bootcamp event

Kademy

This project is a part of INT202 Software Process management, I have designed many UML diagram such as User-case Diagram, Activity Diagram, Sequence Diagram, Class Diagram

AUG 2016

Jan 2016

Tribe (Currently)

My Senior Project called Tribe, The Mixed Reality Game made from Unity, Vuforia and GoogleVR

My Hobbies

P A S S I O N

Singing

Photography

Reading

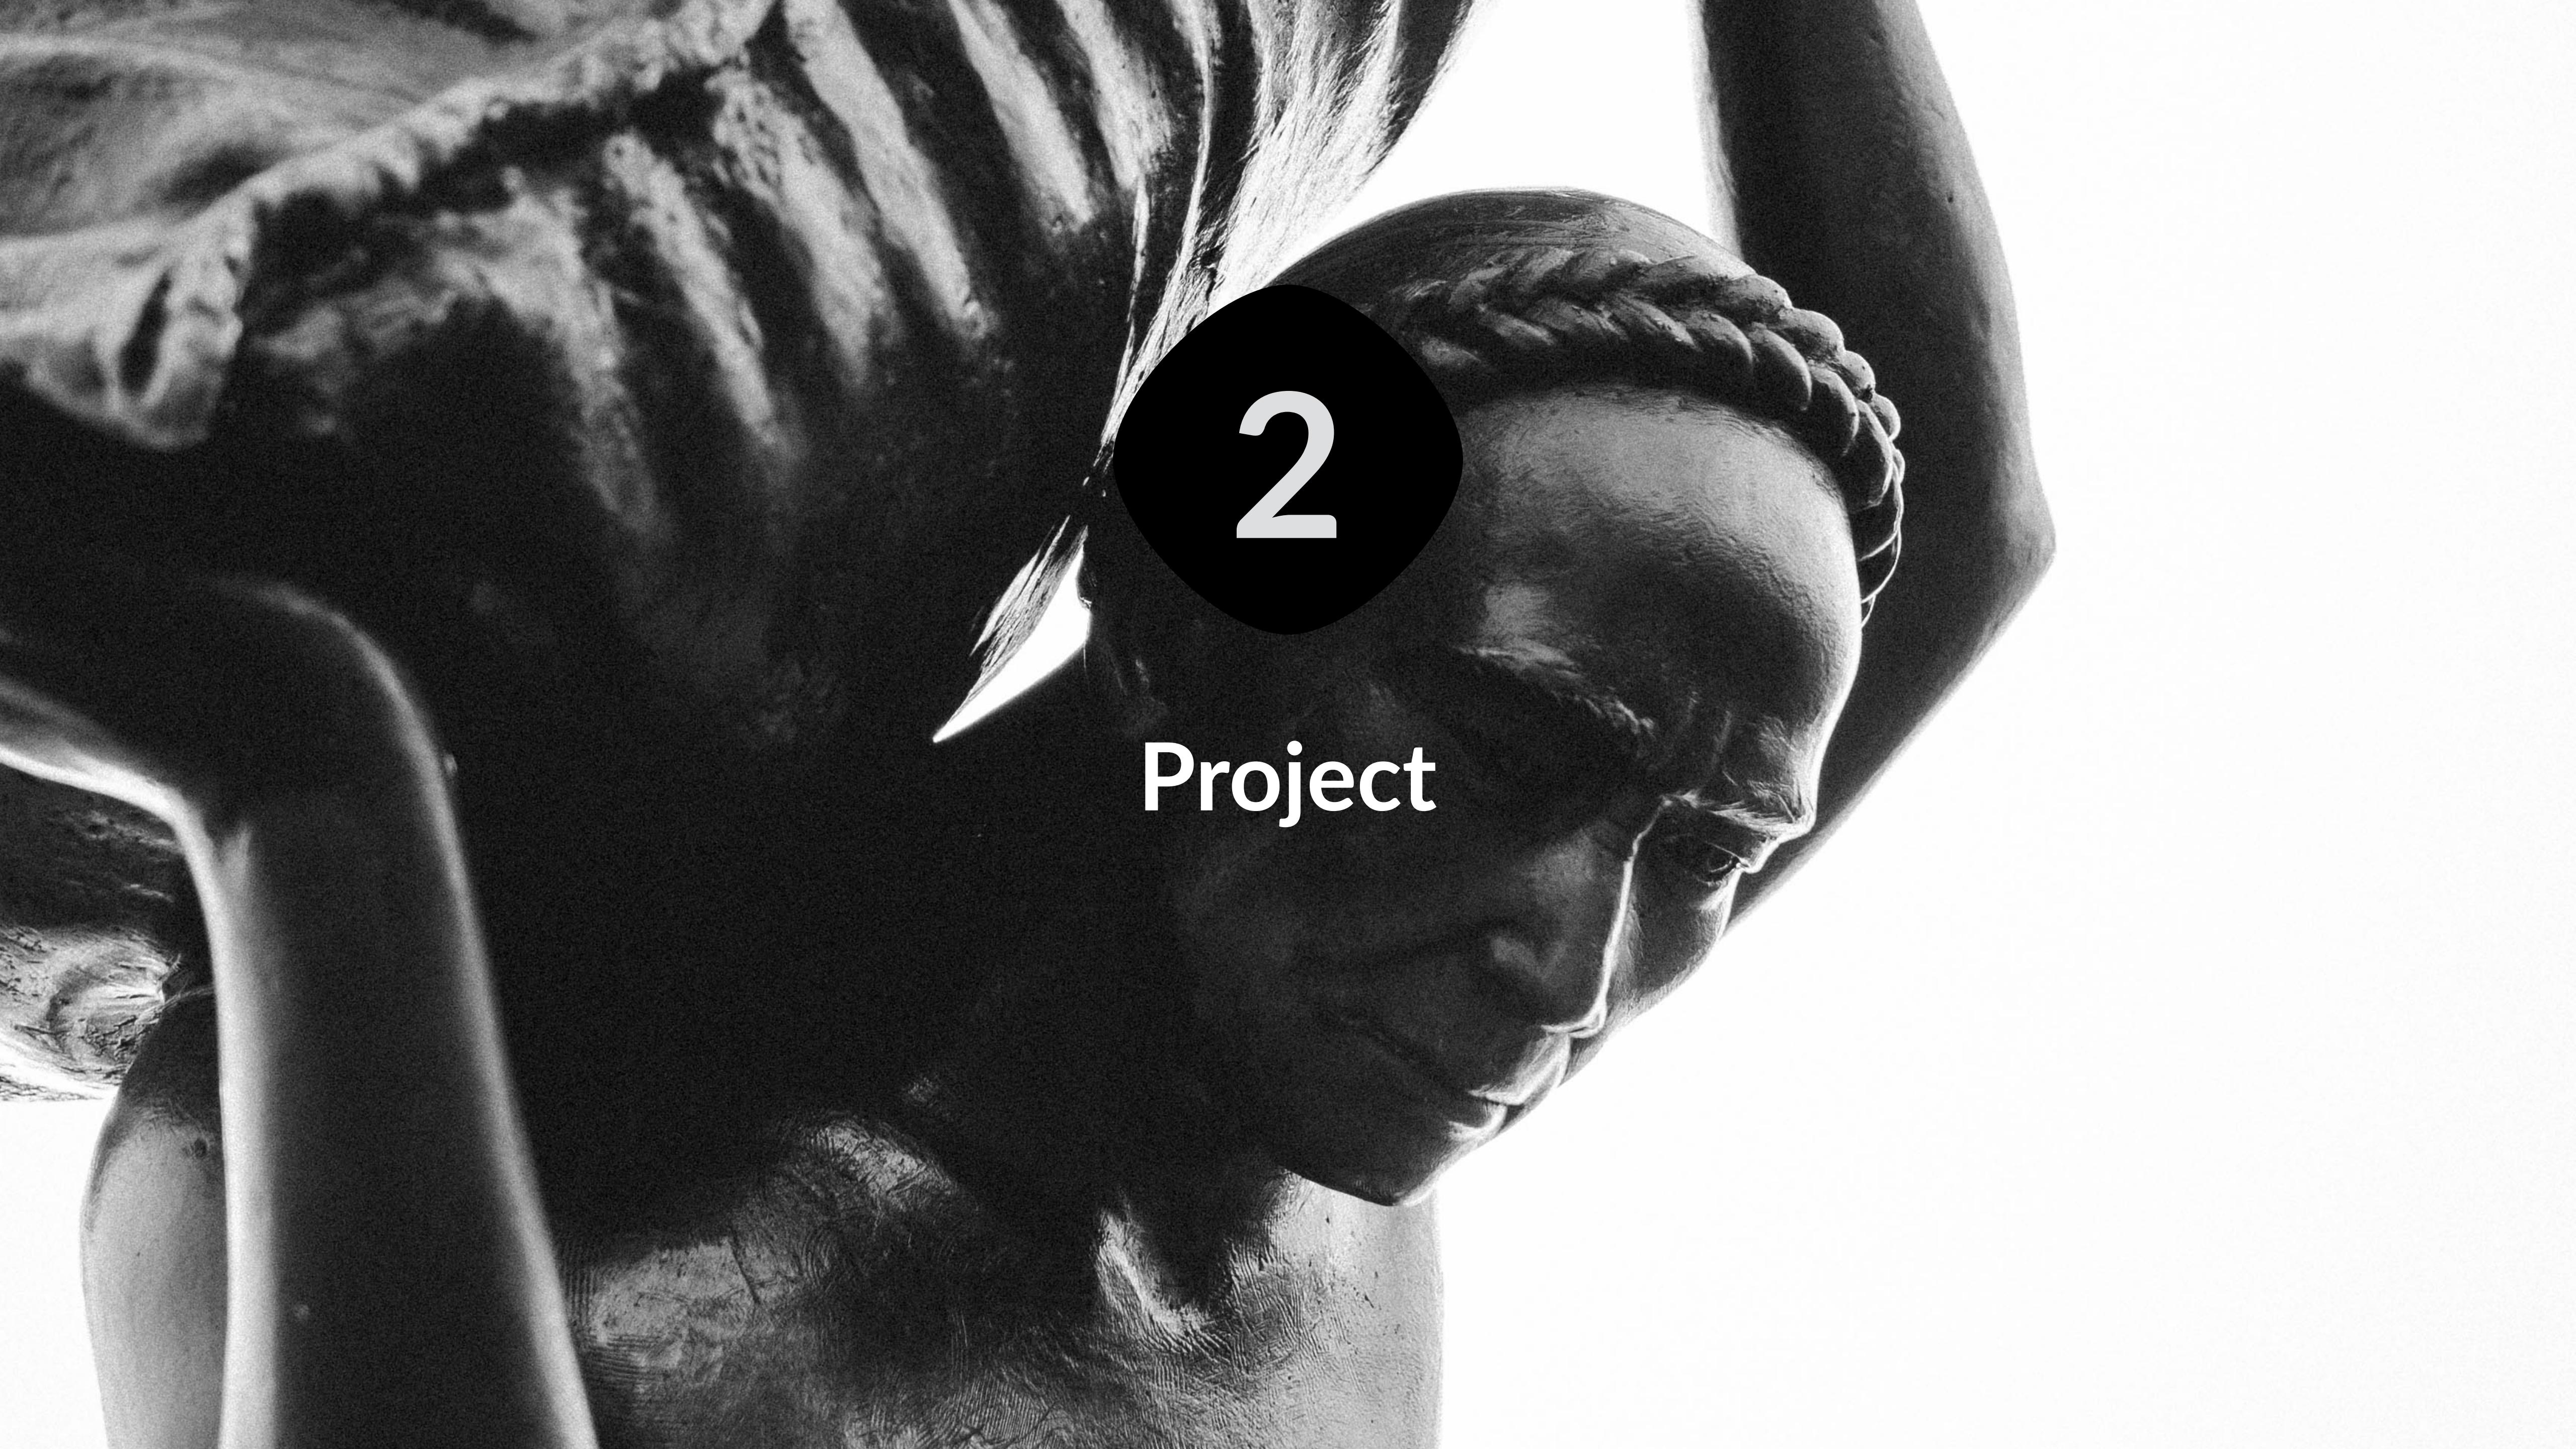

Music

Strategy Game

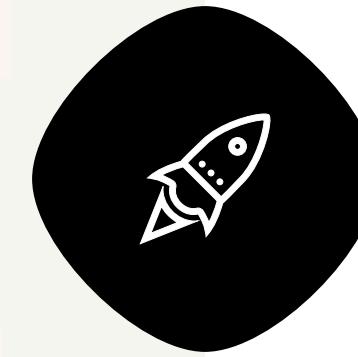

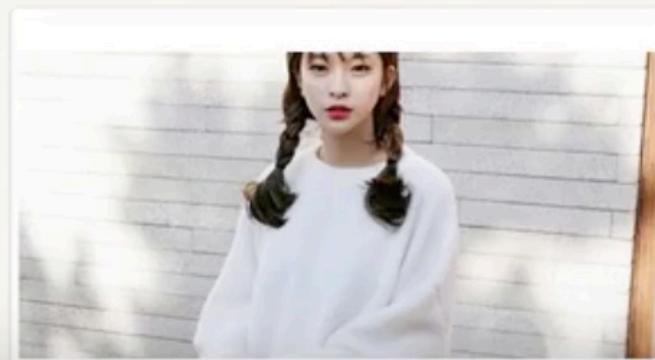

Overwatch

2

Project

Project X

The site help alumni who have their own business send an online discount coupon to undergraduates and other alumni. As a programmer, I took the task of developing codes in programming language Java of various project assigned to me.

Movie Store

This website provides an online service with selling and streaming the movie.

I developed the whole back-end system and managed a team of 3 programmer, In this process, I learn how to manage and developing the project, I worked with database MySQL and programming Java for various of projects.

THE MIXED REALITY STRATEGY GAME

Our purpose, the first thing is fun because “Fun” is the core of the game everyone come to play to be have fun, the second is make VR Box or VR equipment to be more valuable the last is expand and extend we want to expand the base player of board game to be spread out in a largest area, it will be attract who love to play casual game and who love the technology

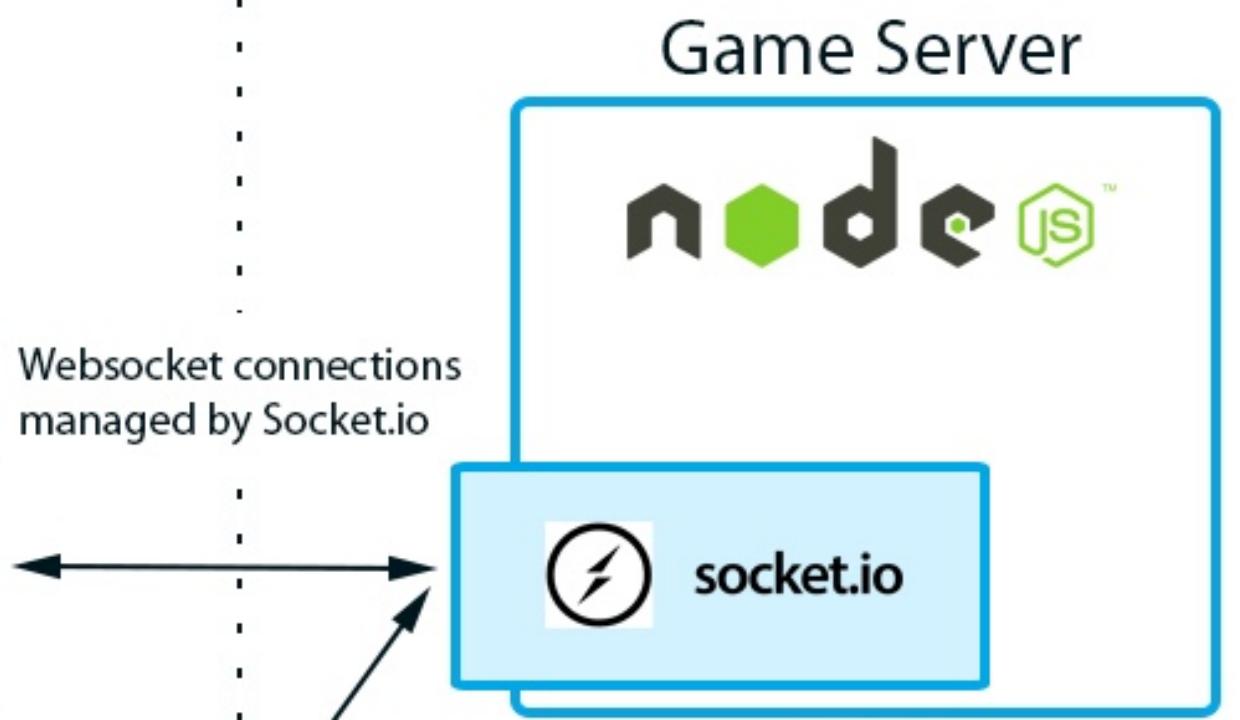

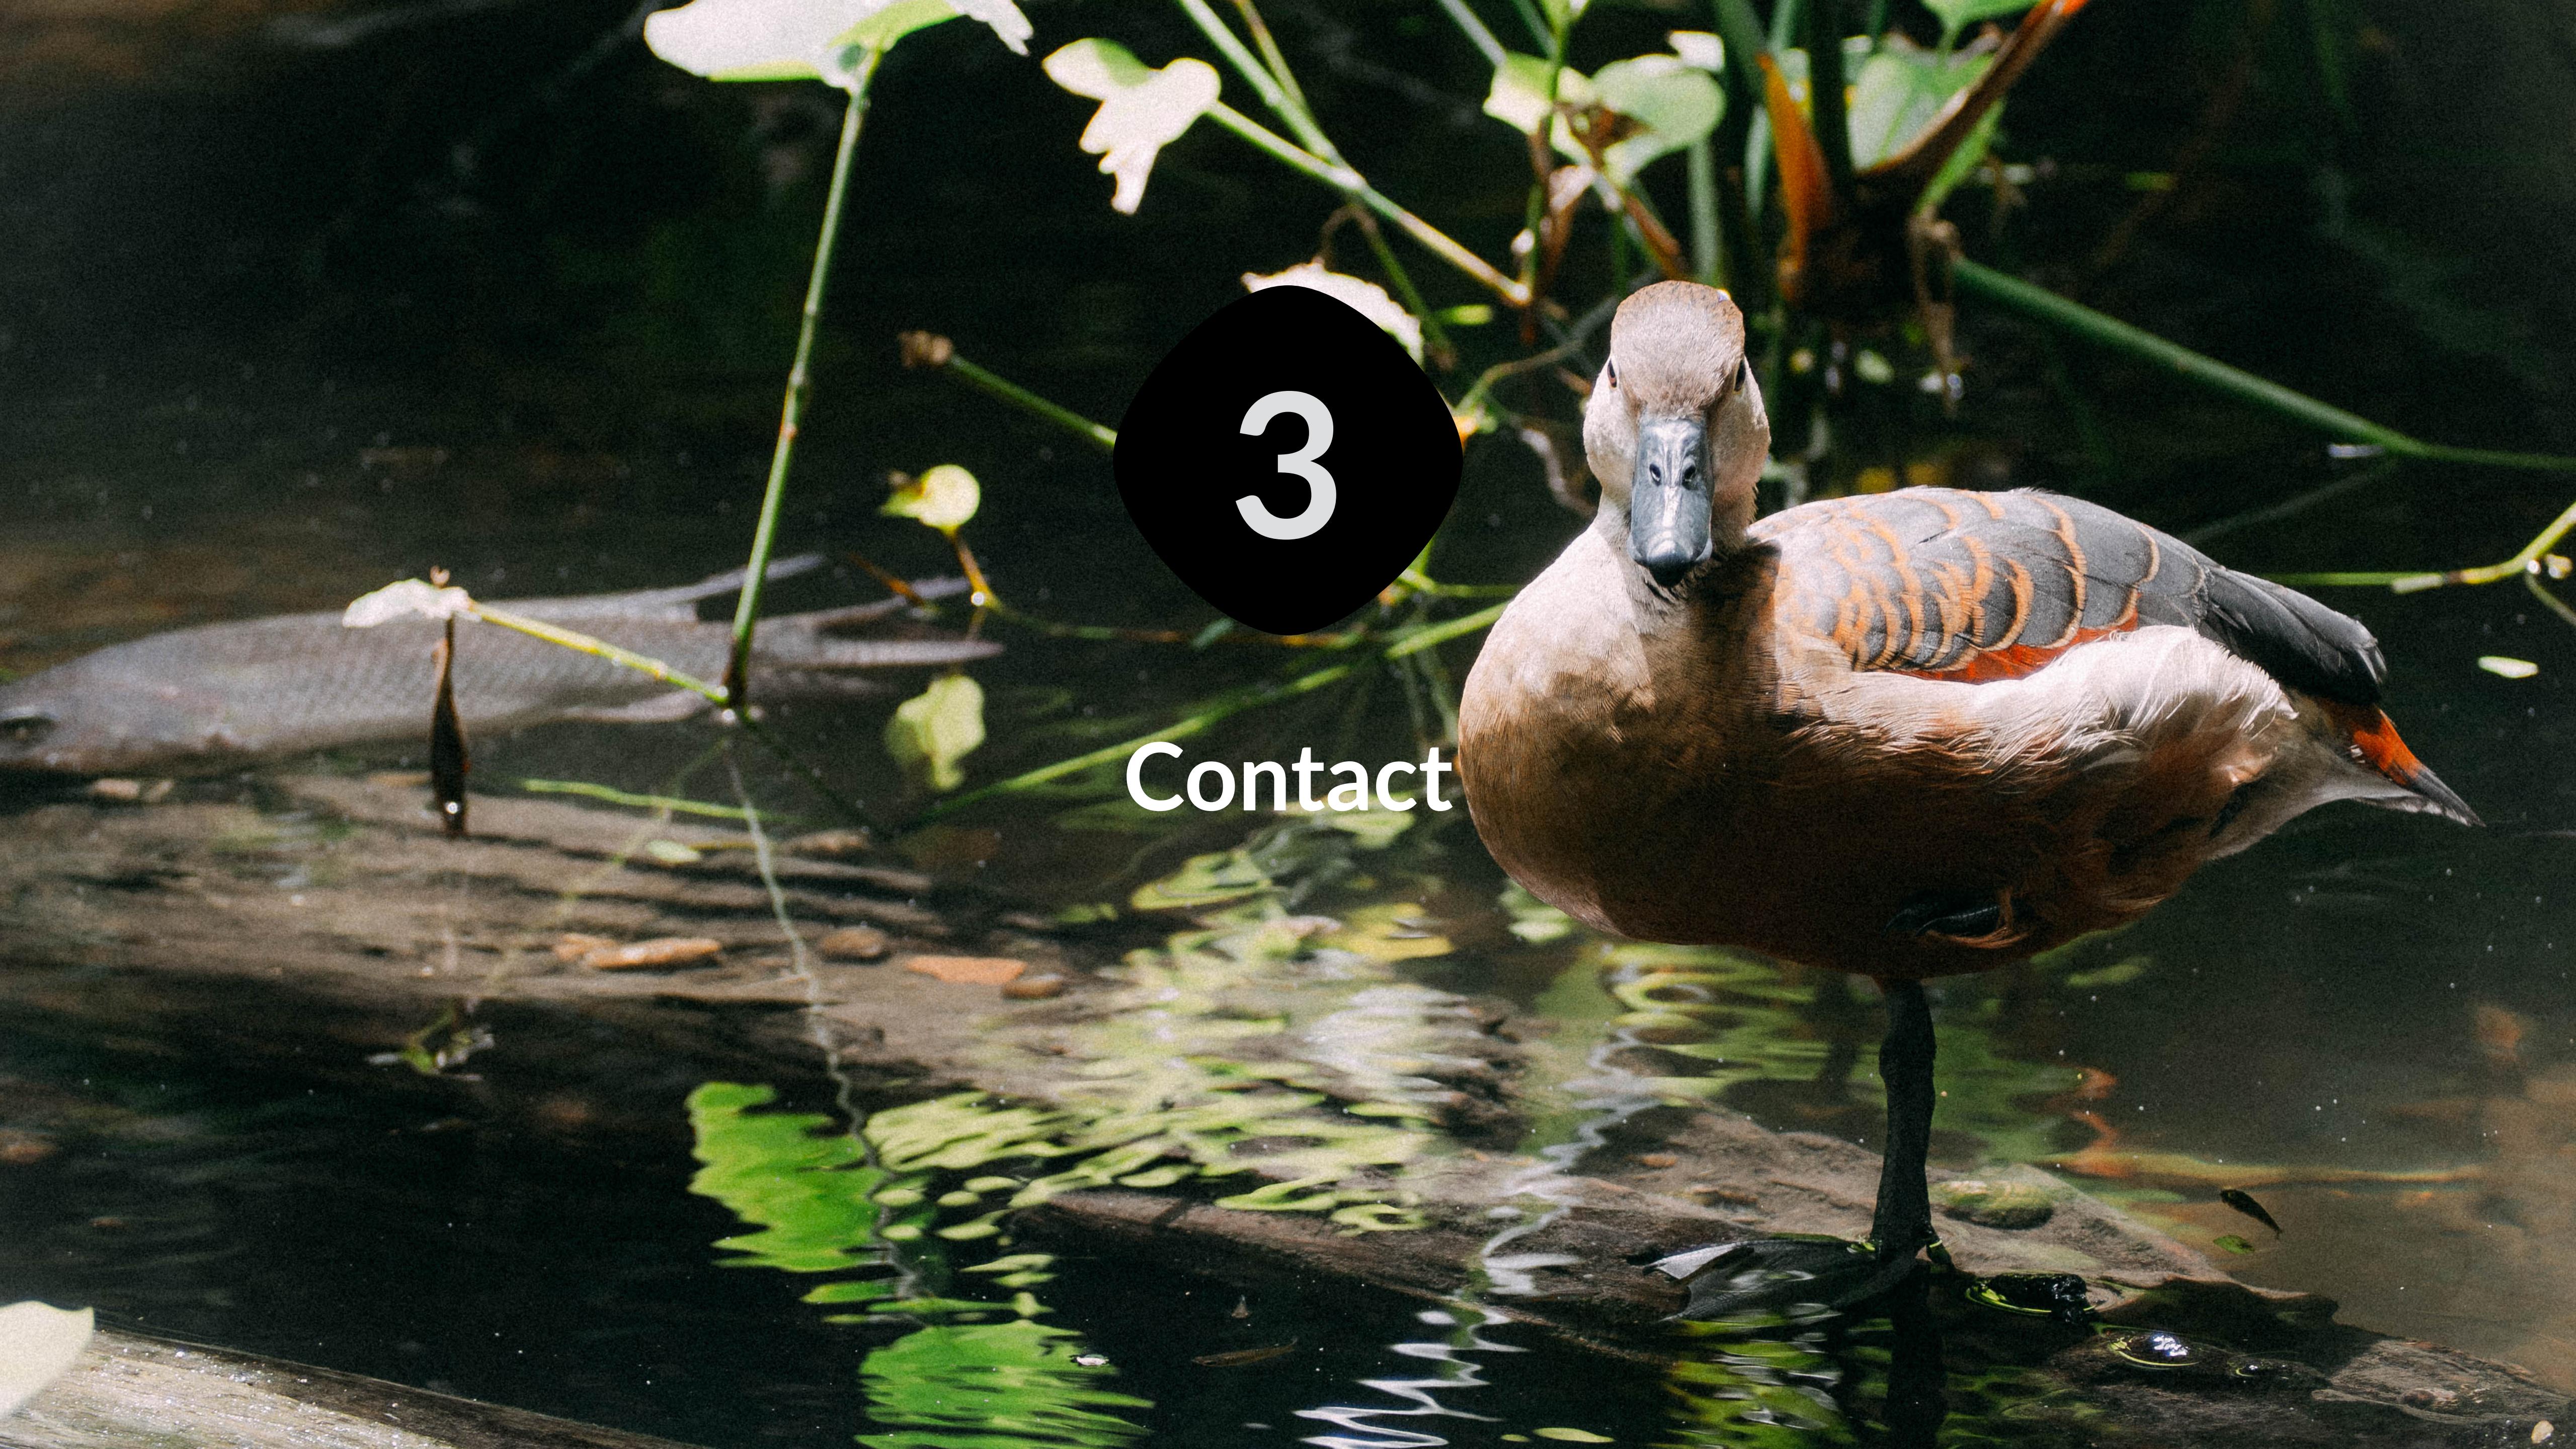

TRIBE

Client Side

Server Side

A close-up photograph of a duck standing in a pond. The duck has a light brown head and neck, a dark grey body with orange and black stripes on its wings, and a long, dark beak. It is standing on a patch of green lily pads. In the background, there are more lily pads and some tall, thin reeds. The water is dark and reflects the surrounding plants.
